UNEASY rests the head that wants an office.

THE weather during the last week has indulged in "searching."

THE last administration of Mr. Cleveland will go down in history as the worst one yet experienced, up to date.

THE Bryan Populists had a crown of thorns which they pressed down upon the brow of the "middle of the roaders."

THE free silverites are now having their day. Sound money will come forward at the proper time, and the silver delusion will vanish away as smoke.

THE reason of our present "hard times" is that people allow themselves to be misled and deceived. Four years ago they were persuaded that the McKinley tariff laws should be repealed. They were repeated, and the people have suffered. The same men who preached free trade are now advocating free silver. Will the people again be deluded by these false pretenses? Surely not. To avoid doing wrong, vote for McKinley and Hobart.

POLITICS makes strange bed fellows. Four years ago Democratic newspapers and orators could say nothing too severe against the Populists. They were abused and denounced unceasingly. Now they are combined together in an effort to elect Mr. Bryan. The esteemed Hartford Herald made itself conspicuous by its denunciations of Populism. Will the Herald please explain whether Democrats have turned Populists, or whether they are and have been one and the same?

MR. R. G. HERR made the following prophecy regarding the Democratic theory of the tariff: "The humber of this entire free trade theory will soon be a matter of demonstration to our people. I predict that the object lesson will be complete, convincing." Mr. Herr was right. The people have been convinced beyond a reasonable doubt that the Democratic idea of free trade, or a tariff for revenue, is most dangerous to our welfare; is vicious and destructive to business interests generally.

THE advocates of free coinage of silver argue that an increased demand for silver would enhance its value, which grounds are well taken, but, how would free coinage increase the demand? The government offers as an inducement to bankers and business men throughout the country to use silver, to ship it to them at the expense of the government and yet millions of silver dollars are piled up in the United States treasury. There certainly can be no further demand for silver dollars while such conditions exist.

THE morning after Bryan's election the holders of United States currency, other than gold, would rush to the treasury and sub-treasuries of the United States and demand redemption till the last gold dollar is passed out to the impatient holders, and when the first silver dollar is offered the holder of greenbacks, the news will be flashed over every wire in the world that the United States Government is bankrupt. Over \$600,000,000 of gold would go out of circulation in a moment. Our \$600,000,000 of silver currency in the same moment would drop to its bullion value or about \$500,000,000. Our \$500,000,000 greenbacks, with silver for a redeemer, will be worth but \$175,000,000. Terrible calamities to overtake a country in a single day, but it is not night yet. Every industry in the country, save those upon which present existence absolutely depends, will shut down. Interest rates measured by the new standard of values will be doubled. The ratification meetings in the South and West will be asked twice the present price for powder, but why prolong the list of disasters, the day after Bryan's election will never come.

"SIXTEEN TO ONE OR Bust!" We predict they'll "bust."

The school per capita in this State was \$2.85 last year and this year it is \$2.75. This is a loss of over \$5,000,000 for the Ohio county teachers. So much for the Republican "reform."

The writer of the above is grossly ignorant or else he presumes a great deal on the ignorance of his readers. It was published this week thinking it would prejudice the teachers, now in session, against the Republican administration. The facts given are true. The per capita has been reduced, but the wonder is that it is as large as it is. In making the school appropriation for last year, Supt. Thompson was a candidate for re-election and was compelled to hold up the school fund, and in order to do so he drew on this year's money for over \$200,000, hence the decrease. Such gross misrepresentations as the Herald's notice is made for political purposes, but this one has fallen flat, and the teachers, regardless of politics, condemn such methods.

THE present clamor for free coinage of silver, like the greenback craze of 20 years ago, arises from a lack of information upon the part of its advocates of what money really is. The policy of the United States of adding a considerable volume of greenbacks to the circulating medium has led many people to believe that the stamp of the Government gives to money its value. A more erroneous idea could not be conceived. Gold and silver were used to measure values and facilitate exchange among the ancient and long period before any government in the world ever conceived the idea of placing a stamp upon them. In all transactions the metals had to be weighed just as large accounts are settled now. But as the commerce of the world increased in volume the people felt the need of a more expeditious way of settling their balances, and then base metals had learned to alloy base metals with the precious ones, and governments were induced to assay and weigh the metals and stamp the weight and fineness upon coins of convenient shape and size. There was no thought of the government imparting value to the coin, but the sole purpose was to save the people the trouble of weighing the metals and to protect them from the counterfeiters. It is true governments are larger and stronger now than then, inventions have shortened the process of supplying the needs of the human family. Science has solved many difficult problems, but to make something out of nothing still remains among the secrets of the Omnipotent. From time to time governments have changed the legal ratio between gold and silver to correspond with their actual ratio, but to fix an arbitrary ratio irrespective of commercial value was left to the Populists of the last days of the nineteenth century. How unfortunate that Teller and Tilden were not in the United States Senate in the early part of this century, when Congress was changing the legal ratio to correspond with the commercial ratio of the two metals. If Congress could not, by legislation, maintain the parity of gold and silver then with only two or three cents difference in commercial value, how can it do it now with fifty cents difference?

THE Democratic party declared in 1892 that a protective tariff was unconstitutional. If there is anything that will make an old fashioned, rock-ribbed, thorough bred Democrat stand on his hind legs and howl it is the talismanic word "unconstitutional." So the Democratic party was successful in 1892 on the argument that protection was unconstitutional. Did the Democratic party on coming into power in 1892 proceed to remove the "unconstitutional" protective tariff? Did it? Well, hardly. It let the unconstitutional protective tariff severely alone for over a year. Then it invited the protected monopolies of the country to send representatives to Washington to tell the Democratic congress how much unconstitutional protection they wanted. Then they went to work and framed a tariff law that contained more "unconstitutional" protection than the Republican war tariff. That is the way in which the Democratic party fulfilled its promise of 1892.

THE Democratic party goes into the campaign of '96 pledged to the free coinage of silver. If it is successful at the polls in November will it enact a free coinage law? Will it? Read the answer in the party's record on the tariff question.

THE reason of our present "hard times" is that people allow themselves to be misled and deceived. Four years ago they were persuaded that the McKinley tariff laws should be repealed. but over two minutes. I don't want to be bothered going around that way three times a day, and I don't want to put you to the trouble of breaking out...  
"I see," mused the prisoner.  
"And so you'd better pass your word not to get onery and skip out, and you'll hang around town, and come up to the house for meals."  
"I'd rather be in jail, kurnel. Fact is, I've allus wanted to be sent to jail, but sunthin' has allus happened to prevent."  
"But consider 'the circumstances, Jim. You hain't nuthin' agin me, hev you?"  
"Oh no; but it 'll disappint' the ole woman and children if I'm not put behind the bars."  
"Thar hain't a blamed bar or bolt or lock about the shanty, Jim."  
"Couldn't I be chained to the wall?"  
"Y-e-s, yo' could, but it would be bad fur ho'r health. Yo'd hev chills inside of three days. They'll hev the new jail done next year, and then, if yo' feel that yo' must go to jail, I'll take yo, in fur thirty days."  
"Waal," said Jim, "I don't want to be onery to nobody, and as yo' seem to want to do the squar' thing, I'll agree to hang around town, but remember, kurnel, that the next time I'm sent to jail I'm either goin' thar or rip the cotton out of one hull side of this country!"  
And Jim got down, and was soon seated on the platform, telling the crowd of idlers what ailed the county and the remedy for it.—[From the "Editor's Drawer," in Harper's Magazine for August.

SIXTEEN TO ONE LOGIC.  
Famous Arguments of the Free Silver Fanatics.  
Mexico has free silver. The Mexican people are very poor. Therefore, we want free silver.  
Wages in this country are too low. Wages are higher here and in all the gold standard countries than in China, India and other silver using nations. Therefore, we want free silver.  
We believe in the double standard under which both metals will be used to measure values. Free coinage at sixteen to one will drive out all our gold and put our currency on the silver basis. Therefore, we want free silver.  
We are an honest dollar people. We shall be just to all the people. The adoption of the silver standard will enable debtors to repudiate one-half of their obligations. Therefore, we want free silver.  
Gold dollars are too scarce and dear to serve as money of the people. Under free coinage a silver dollar will always be worth just as much as a gold dollar. Therefore, we want free silver.  
The government can make 50 cents worth of metal worth 100 cents in gold by stamping it "gold." Under free coinage such a dollar would buy only half as much goods as a gold dollar—that is, it would be worth only half as much. Therefore, we want free silver.  
The prosperity of the American people depends on the amount of wealth produced and the fairness with which it is distributed among the producers. Measuring products in silver instead of gold would neither create any more wealth nor distribute it more justly. Therefore, we want free silver.  
The country is suffering because there is not half enough money to do business with. As soon as a free-coinage law is passed our \$600,000,000 in gold will all be withdrawn, and we shall lose all that amount from circulation. Therefore, we want free silver.  
There is something wrong with the country somehow, though we don't know what it is nor how to cure it. But everything will come all right if a lot of cheap-money agitators are elected to congress, so now and everlastingly we want free silver.—Whidden Graham.

SEVENTY MILLION PEOPLE HAVE MONEY ON THE LINE.  
It is really a race between the interests of the debtors and the creditors of this country. Contrary to the general supposition, there are not more debtors than creditors, but four or five times as many creditors as debtors. One-half of the debtors are not the poor and down-trodden of the country, but are the comparatively well to do. The great debtors of this country are railroads, insurance companies and transportation, manufacturing and mercantile corporations and companies. One-half of the \$6,000,000,000 of mortgage indebtedness of this country is in the states of New York, Pennsylvania, Illinois and Massachusetts, and mostly in the great cities of these states. Less than two-fifths of our total mortgage indebtedness is on farms or "acres." The total number of mortgages is 4,777,000. Now, who are the "rich" creditors? Depositors in savings and other banks and trust companies, and stockholders in building and loan associations. There are at least 10,000,000 of them who hold life insurance policies or who are members of cooperative, fraternal and industrial aid and benefit associations. Into which organizations they have paid good money. The average amount of the credit of each of our 20,000,000 creditors is about \$300. The average amount of each debt is over \$1,300. Poor people cannot give mortgages of over \$1,300. If free coinage wins, 20,000,000 creditors will lose an average of about \$1,300 each, and 10,000,000 debtors will win an average of about \$650 each. If sound currency wins, neither debtors nor creditors will gain or lose anything—except time lost while attending the race.  
As this is a race of an up to date with an out of date boat, and one in which the sympathies and interests of four-fifths of the spectators are, or should be, with the crew in the modern boat, there can be little doubt as to the result.  
Michigan's Experience.  
In 1892 it was nipped and tuck between the democrats and republicans in Michigan. In 1894 the democrats put a distinguished and popular man up for governor on a straight sixteen to one platform, making that the issue, and the majority against them was 106,392. In less than six months thereafter the democrats still clung to sixteen to one, and in a mid-year contest, as it was, the majority against them amounted to 80,407. That was enough for them. This year they tie themselves to sound money.  
The Tall Too Small to Wag the Dog.  
The total population of the silver mining communities, including all those who are directly or indirectly dependent on silver money for a living, cannot exceed 700,000. Why should the interests of the 70,000,000 people of the United States be sacrificed to the supposed interests of this small fraction of their number? Isn't it a pretty insignificant tail to wag such a stupendous dog?—St. Paul Pioneer Press.

The Courier-Journal speaks its mind.  
The day after the Kentucky primaries the Louisville Courier-Journal said editorially:  
"They (the democrats) have repudiated the only president the democratic party has elected and sent for 50 years. They have repudiated the most distinguished of Kentucky's living sons and the greatest democratic intellect in the United States. They have spit upon the fathers of the party whose name and organization they claim, have proclaimed Jefferson an ignoramus, Jackson a conspirator, Benton a knave and Cleveland a traitor. For the faith handed down through 100 years of glorious party history they have substituted a bad rejected by every intelligent civilization on the globe, and for the exponents of that faith they have substituted such apostles of populism as Stewart, such exhorters of socialism as Tillman, such evangelists of anarchism as Altgeld. Saturday's work makes Kentucky republican for years. Before Saturday Bradleyism was dead, but Saturday made it possible for any republican to carry Kentucky over a party which blinds itself to the corpse of free silverism. The one thing now for Kentucky democracy is that the Chicago convention shall not ratify its stupendous blunder, and that chance seems all too remote."

THE silver miners want free coinage to put up the price of their product. The farmers want it to cheapen dollars. It cannot do both. If, as the silver miners contend, free coinage would so advance silver as to make the bullion in a silver dollar worth 100 cents, then the silver dollar would be as hard to get and as costly to the farmer as the gold dollar is now alleged to be. One or the other class of free silver advocates would be disappointed in the results of free coinage.  
Again, the most numerous class of free coinage advocates consists of men who think that the so-called demonetization of silver depressed the price of farm products, and therefore that free coinage would enhance such prices.—

The Courier-Journal speaks its mind.  
The day after the Kentucky primaries the Louisville Courier-Journal said editorially:  
"They (the democrats) have repudiated the only president the democratic party has elected and sent for 50 years. They have repudiated the most distinguished of Kentucky's living sons and the greatest democratic intellect in the United States. They have spit upon the fathers of the party whose name and organization they claim, have proclaimed Jefferson an ignoramus, Jackson a conspirator, Benton a knave and Cleveland a traitor. For the faith handed down through 100 years of glorious party history they have substituted a bad rejected by every intelligent civilization on the globe, and for the exponents of that faith they have substituted such apostles of populism as Stewart, such exhorters of socialism as Tillman, such evangelists of anarchism as Altgeld. Saturday's work makes Kentucky republican for years. Before Saturday Bradleyism was dead, but Saturday made it possible for any republican to carry Kentucky over a party which blinds itself to the corpse of free silverism. The one thing now for Kentucky democracy is that the Chicago convention shall not ratify its stupendous blunder, and that chance seems all too remote."

THE silver miners want free coinage to put up the price of their product. The farmers want it to cheapen dollars. It cannot do both. If, as the silver miners contend, free coinage would so advance silver as to make the bullion in a silver dollar worth 100 cents, then the silver dollar would be as hard to get and as costly to the farmer as the gold dollar is now alleged to be. One or the other class of free silver advocates would be disappointed in the results of free coinage.  
Again, the most numerous class of free coinage advocates consists of men who think that the so-called demonetization of silver depressed the price of farm products, and therefore that free coinage would enhance such prices.—

**Liquid Electricity Testimonials.**  
My wife suffered for twelve years with sour stomach and indigestion. I tried everything I heard of without getting relief. By the use of one bottle of Liquid Electricity she was not only relieved, but entirely cured. I found it effective for cure of toothache also.  
HUGH ROACH, McHenry, Ky.

I stepped on a rusty nail and run it almost through my foot, causing a severe, painful and dangerous wound. After trying everything that is usually used and getting no relief, I purchased a bottle of Liquid Electricity. After applying it a few times I was relieved of pain and swelling began to reduce and in a short time was able to walk. I earnestly recommend it as the best remedy I ever used.  
MRS. MARY A. WILSON, McHenry, Ky.

On night of June 26th, 1896, I was bitten by a very poisonous spider. After using several remedies without any relief I purchased a fifty-cent bottle of Liquid Electricity; and after a few applications was greatly relieved. Am confident it was instrumental in saving my life. I cheerfully recommend it to suffering humanity as a valuable family medicine.  
DUNCAN PENMAN, McHenry, Ky.

I have healed several scalds and burns very rapidly by the use of Liquid Electricity. I think it the best healing remedy I ever used.  
WILLIAM CHRISTIAN, Blacksmith, McHenry, Ky.

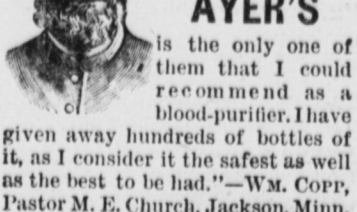

I have used Liquid Electricity for cuts, cramps, colic, etc., and find it to be a rapid healer, and reliable remedy.  
MRS. ANNIE DUNCAN, McHenry, Ky.

I am authorized to appoint sub-agents; and am prepared to furnish same with this wonderful remedy. Correspondence solicited.  
D. S. DUNCAN, Gen. Agt., 52 St. McHenry, Ky.

It would be a great convenience to the reading people of Hartford if we could get the Louisville papers here early on Sunday mornings. As it is we have to wait until in the afternoon and the papers are lying at Beaver Dam all the while. It is the duty of some one to look into this matter. Who will do it?

## INSTITUTE.

A Large Number in Attendance This Week.

An Interesting Session Throughout.

The Ohio County Teachers' Institute met in College Hall Monday morning and the house was called to order by Supt. Shultz, and devotional exercises were conducted by Rev. Jo. B. Rogers. The welcome address was delivered by Rowan Holbrook and Prof. Wm. Foster responded on behalf of the teachers.

Supt. Z. H. Shultz was elected Chairman and L. W. Godsey was elected Secretary. Miss Mattie Taylor, assistant Secretary. Prof. W. E. Lumley, of Palaski, Tenn., was on hand as Instructor. He is a fine educator and the teachers are well pleased with his work. A motion was made and carried to move the Institute to the Court House.

Spelling and its importance was discussed in the afternoon by L. W. Godsey, J. H. Barnes and others, after which several subjects were taken up by the teachers and thoroughly discussed. Adjourned to meet Tuesday Morning.

House was called to order by Supt. Shultz and Rev. J. S. Chandler conducted devotional exercises, and after singing by the choir the program was taken up for the day. The different subjects which had been assigned were handled in a masterly manner by the teachers, which showed clearly that they were well up on the science and arts of teaching and that their minds and hearts were in their work. Every subject brought up for discussion was ably handled.

Tuesday night Prof. Lumley delivered quite an able address to the teachers, taking for his subject: "The Foundation and Preparation of the Earth as the Abode of Man." His address has been highly complimented.

Wednesday morning the Institute again convened in Court Hall with a large number of teachers in attendance, with an interesting program for the day. Devotional exercises were conducted by Rev. J. P. Hicks and minutes of preceding meeting read and approved. The program was taken up in an able manner by Prof. Lumley who explained grafting. A great deal of interest was manifested and a great many questions were asked on the subject, which showed that the teachers were thoroughly convinced of the importance of grafting in their schools.

After recess Prof. Wm. Foster talked on the subject of psychological terms, followed by Jno. B. Taylor up on Senses. In the afternoon Prof. Lumley gave a talk upon the Teacher as a factor in civilization which was well received.

Hon. H. H. Smith, of Hardin county, was next introduced and gave an eloquent talk. He was here in the interest of his race for the Democratic nomination for Congress.

Yesterday morning devotional exercises were conducted by Rev. Jo. B. Rogers, singing by the choir and the discussions of the various subjects begun.

Dr. W. Alexander has filed suit against the school trustees for \$776.42 balance claimed to be due him. Little & Lytle, Owensboro, brought the suit.

**Republicans Attention.**  
Republicans of East and West Hartford precincts, and all persons interested in the election of McKinley and Hobart, are requested to meet at the Court House Saturday night at 8 o'clock for the purpose of organizing a club.

**Great Meeting.**  
Last week we announced the contemplated reunion of Old Buck Creek Church for the purpose of giving her old pastor, Dr. J. S. Coleman, a grand reception. Last Sunday this meeting materialized, beyond the most sanguine expectations of its most zealous supporters. But for the excessive high temperature which was high up in the ninety's, the day was all that could be desired.

At an early hour the swarming multitude began arriving by every mode of conveyance known to modern travel, from the humely farm wagon to the flying railroad express.

Soon the grounds were crowded with vehicles, horses and a melting mass of humanity, which packed the new church edifice to its utmost capacity, with an eager crowd left standing at the doors and windows, all gazing to catch a glimpse or hear a word from the lips of the old man of God as he arose in the pulpit to assume the responsibilities of the great occasion.

Not one-third of those in attendance could get within either hearing or even seeing distance. The crowd was variously estimated at from 1,500 to 2,000 souls, all exhibiting the ut-

most good humor, inasmuch not an accident occurred to mar the pleasure of the occasion, save that a few individuals were overcome and exhausted by the excessive heat of the weather.

Dr. Coleman announced his subject: "The Certainty of the Kingdom of Christ"—Text, Daniel 7:14, 18, 27 and for more than an hour he held the large crowd as still as if they were all comfortable. Finding himself greatly exhausted he abruptly closed, when the reunion began by hand-shaking and congratulations that brought tears to many, many eyes. After which a most sumptuous dinner on which all this multitude fed to satisfactory was spread for all.

Taking all in all it was truly an ovation to Dr. Coleman, of which any man could justly be proud, yet one he justly merited by virtue of many long years of remarkable successful pastoral labors, extending through nearly a quarter of a century, during which time hundreds were converted and added to Old Buck Creek Church. This occasion was a most becoming one and will be long remembered.

## BEAVER DAM.

Rev. Wilson filled his regular appointment here Sunday.

The ice cream supper given by the Christian Endeavor on last Thursday evening was a quiet yet an enjoyable affair. Sufficient means were made to purchase literature and that was their sole aim. The members most heartily thank the Hartford crowd for their patronage, and also the home people that attended.

Mrs. H. D. Hunt and son, Percy, and daughter, little Miss Sallie, returned last week from a pleasant visit to relatives in Rochester and Huntsville.

Miss Gertie Monroe returned Tuesday from a visit to Miss Myrl Butler, of Morgantown.

Mr. Williams lectures in the M. E. Church Friday evening and every one should hear him.

Mrs. A. V. Thompson and sons, Robbie and Daniel, Louisville, are visiting Mrs. Thompson's sister Mrs. O. Stevens.

Misses Emma and Fannie Barnes, Virgie Hocker and Sade Austin spent Sunday afternoon in the country at Mr. G. W. Barnes.

Mr. A. M. Hunt made a trip through Butler with Mr. K. J. McKenney this week.

Mrs. Brewer, Rochester, is visiting her daughter Mrs. K. J. McKenney. The infant of Mr. J. M. Likens died Monday.

Mr. Harry Monroe has quite a bad foot caused by poison oak.

Several of our town and near country people spent Sunday at Mr. Had Austin's four miles from here. They report a splendid time.

Misses Maud Taylor and Emma Barnes spent Tuesday night in Hartford with Mrs. Shelby Taylor.

Miss Clifflie Gray has returned from the country.

There at present and have been for several weeks many cases of whooping cough. It is going very hard with some yet light with others.

**ATTY.**  
Hon. L. J. Beauchamp delivered quite an interesting lecture at the Court House Wednesday night.

**State Colored Republican League.**  
The colored Republicans of the State met in the city of Frankfort at 12 m, July 28, pursuant to a call made by Dr. E. E. Underwood. The meeting was called to order by Dr. Underwood who delivered an address setting forth the object of the meeting.

Prof. T. C. Buford was elected temporary chairman of the meeting and Prof. L. G. P. Todd was elected temporary secretary. A committee on credentials was appointed consisting of one delegate from every Congressional district represented. While the committee was preparing its report Dr. S. E. Smith, of Owensboro; W. A. Gaines, of Covington, and editor W. D. Johnson, of the Standard, of Lexington, delivered addresses.

Then the committee reported and a committee on permanent organization was appointed by the chair, consisting of 9 members who reported for President Dr. E. E. Underwood, permanent; Vice President, Prof. Craig, permanent; Secretary, Dr. Wade, of Morgantown, permanent; Assistant Secretary, Prof. P. A. Gary, of Ohio county; Treasurer, E. W. Marshall, of Louisville.

We had a large delegation considering the hard times. Gov. W. O. Bradley delivered an address Tuesday night.

**LIBERTY.**  
Old Liberty is still on a boom.

Hay harvesting is the order of the day.

Rev. Chandler filled his regular appointment here Saturday and Sunday last.

An infant child of Mr. Bob Oglesby died July 24 and was buried here.

**ELLENDALE.**

The big Kentucky Fair begins this year on July 28th and ends August 1st. Five days devoted to instruction, amusements and recreation. The management are making superhuman efforts to make it the leading fair of the State. There will be improvements and rare attractions in all departments. The gorgeous floral hall of '95 will be eclipsed by the splendor of this year. A \$110 Packard organ will be given to the best display of ladies' work in the hall and \$25.00 in gold to the best display of each county represented by at least three displays. The best article of each class will also receive a liberal premium. The Poultry Exhibit promises to make the poultry show second to none in the State. Premiums liberal and classification full. New regulation coops are used and poultry judged according to the American standard of perfection by T. D. Heimlich, the expert judge of Jacksonville, Ill.

The race track is in most excellent condition, being several seconds faster than last year. It is without doubt one of the fastest half mile tracks in the State, and on it will be fine running, trotting and pacing races, men's, children's and women's bicycle races, mule, hound and goat races and foot and potato races.

Accommodations for 10,000 people that will be in daily attendance will be ample, luxurious and cheap. Beside the big hotel there will be a village of tents—small tents, family tents and tents big enough to sleep a Sunday School excursion.

Handsome premiums given to couples marrying on the grounds on Wednesday and Thursday.

Excursion rates on all railroads and rivers of middle and Western Kentucky.

Admission 25c. Tuesday the 28th being ladies' day, ladies and children under 10 free. W. F. RAPIER, President Ellendale Fair Co.

For further information and premium lists address the Secretary. Privileges sold to highest and best bidder. Bids close July 10th 1896.

This testimonial is unsolicited and for the benefit of humanity. My daughter has been subject to severe colds and croup and often taken with violent coughing spells at night. Dr. Bell's Pine Tar Honey is the only preparation I have found that will relieve her. I think it is as necessary in the household as a life preserver on a steamboat.

**Seven Months With Fever.**  
Wonderful Recovery of Health.

Mr. Baird's rapid and marvelous recovery from a more skeleton to his normal weight, 270 pounds, was surely the fullest test of the greatest strength-giving and building-up medicine ever produced, namely:

**Dr. Miles' Restorative Nerve.**

"Gentlemen—I wish to express to you my gratitude for the great good that Dr. Miles' Nerve has done for me. I was taken sick with typhoid fever and I lay in bed for seven months. After getting over the fever I was thin, nervous and tired, and did not regain my lost strength. I tried several proprietary medicines, and finally after having been reduced in weight to 120 pounds, I began trying your Nerve, and at once began to improve. Was finally cured, and today I can say I never felt better in all my life, and weigh 270 pounds. This is my normal weight, as I measure 5 feet 9 1/2 inches in height."
